1. The drawings were received on 11/28/05. These drawings are accepted.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 3, 5, 8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kong '429 in view of Cueto '290 and Zohe '441, both of record.

To have provided the nursing container of Kong with a flow tube, which is attached by a plate so as to withdraw contents from the bottom and keep the liner from collapse completely in the manner of Cueto and Zohe, would have been obvious.

3. Claims 1, 3-5, 8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morano et al '452 in view of Cueto and Zohe, both of record.

To have provided the nursing container of Morano et al with a flow tube to withdraw contents from the bottom and prevents complete collapse of the liner in the manner taught by Cueto and Zohe would have been obvious.

4. Claims 2, 9, 11 and 16-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied to claim 1 above, and further in view of Kock et al '875.

To have provided apertures along the length of the flow tube for ease of dispensing would have been obvious in view of such teaching by Kock et al at 38.

5. Claims 12 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied to claims 8 and 19 above, and further in view of Sheu '787, of record.

To have provided a member at the bottom of the flow tube to position the tube would have been obvious in view of such teaching by Sheu.

6. Claims 6 and 7 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 13-15 are allowed.

8. Applicant's arguments with respect to claims 1 and 16 have been considered but are moot in view of the new ground(s) of rejection.

9. Applicant's arguments, see page 6 of the amendment, filed 11/28/05, with respect to the objection to the drawings have been fully considered and are persuasive.

The objection of the drawings has been withdrawn.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Drobish et al who another tube with apertures along the length. Boston and Meyers et al show other liner bottles.

11. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a).
